***Response to Amendment***

The Declaration filed on March 26, 2007 under 37 CFR 1.131 is sufficient to overcome the Dalton, Jr. et al reference.

***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-8 are allowable over the prior art because Claim 1 sets forth a light bar for a vehicle having a support extending across either of the front or rear facing windows adjacent the top edge of the window but not above the surface of the vehicle and including a plurality of light assemblies. This combination of limitations was not shown or suggested by the prior art. Claims 9-11 and 13-15 are allowable over the prior art because Claim 9 sets forth a light bar for a vehicle having an elongated support and being flexible and extending across either of the front or rear facing windows with a plurality of lighting assemblies and a mounting bracket. This combination of limitations was not shown or suggested by the prior art. Claim 12 is considered to be allowable over the prior art because Claim 12 contains the limitation that the plurality of light assemblies are movable relative to each other in response to the support bending. This combination of limitations was not shown or suggested by the prior art. Claims 16-20 are allowable over the prior art because Claim 16 sets forth a light bar for a vehicle comprising an elongated support that can extend across one of the vehicle windows, a plurality of separate cases with a plurality of light assemblies mounted within each case

and a mounting bracket to connect the light bar to the vehicle. This combination of limitations was not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
